DETAILED ACTION

EXAMINER'S COMMENT

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicants' IDS submission filed on 1/31/2011 has been entered.

The previously made Examiner's Amendment appears below since applicant has not provided a current complete listing of the claims reflecting the changes made by the previous Examiner's Amendment with the request for continued examination.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. The amendments to claims 11 and 28 are done so that the amendment is in compliance with 37 CFR 1.121 as you cannot use both strikethrough and double bracketing to delete the same term.

Authorization for this examiner's amendment was given in a telephone interview with Arthur Crawford on 10/26/2010.

The application has been amended as follows:

In the Specification:

Add the following paragraph as the first paragraph of the specification:

-- The present invention is a 371 of PCT/GB04/01353 filed 03/31/2004. --

In the Claims:

In claim 1, the term "Process" at the beginning of said claim has been changed to -- A process --.

In claim 1, delete the phrase "low volatility".

In claims 3-6, 10-14, 17-23, and 33, the term "Process" at the beginning of each of these claims has been changed to -- The process --.

In claim 11, delete "~~for~~".

In claim 28, delete "~~the~~" and "~~1~~".

In claim 25, the term "obtainable" has been changed to -- obtained --.

Claim 26 has been canceled.

In claims 29 and 30, the term "Article" at the beginning of said claims has been changed to -- An article --.

In claims 29 and 30, the term "obtainable" has been changed to -- obtained --.

In claim 31, the term "Shaped" at the beginning of the claim has been changed to -- A shaped --.

Claim 32 has been canceled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: although Merten et al. disclose the use of stearic acid, said compound does not meet the criteria set forth in claim 1 for a milling fluid as also argued by Applicants. Therefore, the prior art does not teach or suggest a process for producing a metal flake pigment composition comprising mechanical milling of metal powder in a milling fluid in the substantial absence of water and hydrocarbon solvents, wherein the milling fluid is both solvent and water miscible, selected from ethers, ketonic species, heteroatom-containing compounds and lower mono and dialkyl ethers, esters and mixed ether esters of mono-, di-, and tri-ethylene and propylene glycols.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to PEGAH PARVINI whose telephone number is (571)272-2639. The examiner can normally be reached on Monday to Friday 8:00am-4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
